**Department of Healthcare Policy and Research**  
Weill Cornell Medical College – New York City

**Chief of the Division of Health Informatics**

The Department is seeking an outstanding faculty member to serve as Chief of the new Division of Health Informatics. The Division will pursue research, education, service and innovation in informatics to improve quality and value in health care.

The position requires expertise in the study of the use and effects of information technology in health care, such as adoption, usability, fit, utility, generalizability, scalability, or sustainability. In addition, expertise in the advanced use of data to inform policy and decision making, such as applications of data mining, machine learning or analytics to support new models of healthcare delivery are encouraged. The candidate should have an extensive track record of independent and interdisciplinary collaborative research, as well as documented success in extramural funding and program development. Collaborative leadership skills are critical.

The Division Chief will play a leadership role in fostering collaborative opportunities in research, education, service and innovation with other divisions, departments and partner organizations, including faculty and staff at the Medical College, the Center for Healthcare Policy and Research, Weill Cornell Physicians Organization, New York-Presbyterian Hospital and Cornell Tech.

The successful candidate will have PhD in biomedical informatics, computer science or closely related field, or have an MD with Master’s degree or fellowship in informatics or related field. The academic record should make the candidate eligible for an appointment to the faculty of Weill Cornell Medical College in New York City at the rank of Associate or Full Professor, depending on experience.

Applications including a letter of interest and CV should be sent to ccrabtre@med.cornell.edu. There is no firm closing date for this posting, but the evaluation process of applications will begin before the end of May.

Weill Cornell Medical College, located in New York City, is an equal opportunity employer.
